

7 TECH TOOLS to TEACH BETTER

GOOGLE DRIVE / APPS: Allows your students to collaborate and create documents or share assignments in real time. Use Docs, Slides, Sheets and more, in this versatile suite of office apps.
Go to: drive.google.com

CREATE

ASSESS

SOCRATIVE: Allows your students to respond to questions or collect formative assessment data in real time as you send questions or entire quizzes to their mobile devices and even create useful reports.
Go to: www.socrative.com

PADLET: Provides a digital bulletin board for students to curate their ideas, images or videos together in real time, with teacher oversight.

COLLABORATE

REVIEW

KAHOOT!: Creates engaging and fun review games that teachers can use to review material and compete against one another as teams or individuals.

Go to: <https://getkahoot.com/>

EDpuzzle

EDpuzzle: Creates engaging and aligned videos by adding questions and quizzes to assess student understanding. Even load your own created videos and add items or content.

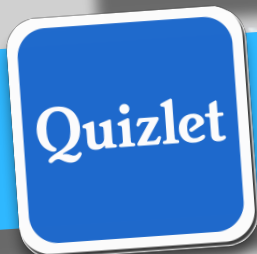

Go to: www.edpuzzle.com

ENGAGE

LEARN

NEARPOD: Allows your students to follow along next time you lecture on their own devices. Nearpod allows you to create interactive presentations and embed your own content and questions.

Go to: www.nearpod.com

QUIZLET: Creates engaging vocabulary lists with embedded games and assessments with just a click. Students have multiple ways to interact with, study and use your whole vocabulary list..
